DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1-6, 9-12, 14-47 and 55 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims appear directed to a method or process. However for purposes of 101, a “process” has been given a specialized, limited meaning by the courts. A process must (1) be tied to another statutory class (such as a particular apparatus) or (2) transform underlying subject matter (such as an article or materials) to a different state or thing. Neither of these requirements are met by the claim, thus the method is not a patent eligible process and is therefore non-statutory subject matter.

Allowable Subject Matter

3. Claims 48-54 are allowed.
